## Air quality warning ended for Vernon

November 4, 2025

---

The Ministry of Environment and Parks in collaboration with the Interior Health Authority has ended the Air Quality Warning that was issued on November 03, 2025 for Vernon due to elevated levels of coarse particulate matter.

Local air quality has improved due to changing meteorological conditions.

### More information

The provincial air quality objective for PM<sub>10</sub> is 50 micrograms per cubic metre ( $\mu\text{g}/\text{m}^3$ ), averaged over 24 hours. 24-hour average PM<sub>10</sub> concentrations are summarized below for Vernon and nearest monitored communities at 8:00 AM local time today:

Community	Vernon	Kelowna
24-hr average ( $\mu\text{g}/\text{m}^3$ )	34.7	17.6

Visit the [provincial air quality data webpage](#) for real-time observations.
